*We are a Social Promotion Association founded in 2013 and we believe that every person has the right to live with dignity, beauty, and equal opportunities.*

We work at local and international level to promote social participation and **lifelong learning** as tools for personal and professional growth, with a strong focus on young people.

Rooted in the local community, we develop social, educational and cultural initiatives responding to local needs, with **particular attention to refugees, asylum seekers and migrants.**

Through reception and inclusion projects, Terzo Millennio supports individuals and families in building autonomy, confidence and active participation in **community life.**

# OUR MISSION AND PROJECTS

We design and implement projects focused on **youth work, intercultural dialogue, human rights, social inclusion, and community development**, at both local and European level (including Erasmus+ and European Solidarity Corps projects). Many of our activities involve **refugees, asylum seekers, migrants, and local communities**, with the aim of fostering mutual understanding, solidarity, and social cohesion.

In our daily work, we use **Non-Formal Education (NFE) methodology**. This approach is based on experiential learning, active participation, cooperation, and reflection. We believe that everyone learns differently and that each person brings valuable experiences and knowledge. For this reason, we create safe, participatory spaces through workshops, intercultural activities, awareness-raising actions, and language courses, contributing to equal opportunities, empowerment, and social change.

# LOCATION: SALENTO

We operate in the province of **Lecce**, in the **Puglia region**, in the south of Italy and our offices are all over Salento - Melendugno, Castri, Lecce, Alessano, Presicce Acquarica. **During your volunteering experience, you will live in Melendugno, but you will also work and take part in activities in different nearby towns.**

The **headquarters** of Terzo Millennio is located in **Castri di Lecce**. The Castri office is a dynamic place, where many of the project ideas we realise in the area are born, discussed, and transformed into concrete actions for the community.

The Territorial Centre for Interculture **“Alessandro Leogrando”** is located in **Melendugno**. It was born out of the desire to create processes of inclusion and social empowerment in the communities of Terre di Acaya and Roca, and to promote solidarity and lasting bonds between families, women and men who have different cultures of origin and common destinies.

● **Melendugno:** Volunteer house; doposcuola, office, Italian lessons, other activities

● **Castri di Lecce:** Main office (administration & communication activities)

● **Borgagne:** Doposcuola

● **Lecce:** Office; Italian lessons;

● **Presicce Acquarica:** office

● **Alessano:** office

**Workshops and festivals can be organized in all of these locations.**

*Volunteers will be involved in different activities according to their interests, skills, and the areas they would like to develop. Volunteers are always encouraged to bring new skills, ideas, and activities to the table and actively contribute to shaping the project.*

*Activities are organised into main areas of work, allowing you to better understand your role and learning opportunities.*
